

Internship – .NET (C#)

Looking for a challenging environment that supports you in your development with dedicated training hours and budget? Want to work with the most skilled and gifted people in the industry and learn from our broad experience?

We are looking for highly motivated young software engineers to join our Belgrade office.

Our offering

- paid internship
- training package (dedicated working days - approx. 5 % of your yearly working time and a matching financial budget)
- clear career path and defined personal goals with achievement based career prospects
- opportunity to collaborate with colleagues and clients across the Zühlke Group

Your skills

You have an analytical, yet innovative mindset and the desire to challenge conventional thinking. You have desire to learn or have practical experience in the following areas:

- .NET (C#)
- modern web, cloud-native, AR/VR, blockchain or mobile applications
- OO basics (UML)
- agile methodologies and tools

Qualifications

- final-year student at one of the technical faculties or freshly graduated
- communicative and open-minded personality
- fluent in English (both written and spoken)
